On May 25th, Dave and Sarah met with Kim Jude, Student Services Director and Josh Montgomery, CAPS Program Coordinator from the Marysville School District, to discuss an onsite training program for several of Josh's students next school year. We are excited to develop this partnership with the school, and look forward to welcoming several of the students to UCO during the second nine week period of the upcoming school year. The program will teach the students using real life techniques about how to apply for a job, participate in interviews, receive on the job training, and begin working. We hope to reinforce the lessons Josh teaches in his classroom. Who knows, maybe we will find some future UCO employees in the mix! Stay tuned for more information.

EMPLOYEE COMMITTEE NOTE ON SAFETY

It's about building a culture of correct attitudes and disciplines, empowering people to prevent hazards and to mitigate risk.

Further, we recognize we must continue to lead by example, particularly when it comes to the journey toward our commitment to safety, the environment and our people.

We should all be held accountable for safe working practices by coaching one another and reporting unsafe acts or conditions. We understand that we have an obligation to protect not only ourselves, but also those around us and the environment in which we live. Though our relentless journey, we build awareness and systematically make things better by eliminating unnecessary risks. If we do, we will improve our work community and our world.
