CEO Update

UCO has a long-standing partnership with Honda and they continue to be our largest customer. We owe them a heartfelt and enthusiastic "Thank You" for their support of UCO. We all recognize Honda's importance to our community but did you know:

- This month they celebrate 40 years of operations in Marysville from when the first motorcycle rolled off the assembly line (1979)
- Honda was the first Japanese automaker to build automobiles in the U.S. (1982)
- Honda now employees 15,000 associates in the state of Ohio
- Honda has invested $11 Billion in its Ohio operations, across several communities
- Honda's operations in Ohio include not only manufacturing, but also research and development, parts procurement, and logistics
- Honda's Ohio manufacturing plants have produced nearly 20 million vehicles since inception
- Honda's Ohio engine and transmission plant produces more than 1 million units each year
- Honda's purchases from 150 Ohio parts suppliers (of which UCO is one), have grown to $10 Billion annually
- Honda has contributed $100 million to Ohio charitable organizations (like Memorial Health, Marysville schools, and many others in communities where their plants exist)

To say Honda has changed the face of Marysville, Ohio, and the United States is an understatement. Honda has become a true community partner, building our communities in unbelievable ways: economically, philanthropically, and culturally.

Thank you Honda and we wish you many, many more years of continued success!

YOU NEED TO KNOW

Rev 36 Art Show

On Friday, August 23rd REV 36, the Art studio stationed at UCO had their first Art Show!! The show went very well and featured great artwork from our employees such as yard décor, coasters, self portraits, yarn art, and live hand drawn portraits from Chad!!

Thank you to everyone who came out to support the artists!

"Because I like to work"

Favorite Hobbies/interests

"I like to help my mom cook & Clean"

Favorite Meal

"Rice"

Favorite Movie

" The Virginian Series"

What would you like others to know about you?

"Quiet, made a lot of friends here"

New Customer - Graphic Packaging

UCO is excited to announce a new customer from Kenton Ohio, Graphic Packaging. Graphic Packaging approached UCO about helping them package their products (cups & lids for fast food chains) for distribution to their customers. Manufacturing for their cups and lids happen in very different areas and processes within their facility. They have asked us to help them with final assembly of their products. They will ship us boxes of cups and boxes of lids, and then UCO will combine the parts into boxes with the same number of cups and lids in each box for their customers. Graphic Packaging is a very large international organization, with their Kenton facility producing millions of cups each year for large, well-known organizations like Wendy's and Starbucks to name a couple. You might recognize another logo on a sample we worked with below. **Graphic Packaging, we welcome you to the UCO family and look forward to a long working relationship with you!!**

"OUR MISSION IS TO PROVIDE PAID EMPLOYMENT OPPORTUNITIES, IN INTEGRATED COMMUNITY SETTINGS, FOR PEOPLE WITH DEVELOPMENTAL DISABILITIES."

New Faces

Be sure to welcome our newest employees and help them feel a part of the UCO family!

Tommy

EMPLOYEE COUNCIL

The Employee council has been brain storming and come up with an idea to share some easy recipes that matches the season! The first will be a recipe for fall!

Parmesan Carrots

2lbs of carrots, peeled and sliced into 1/4 inch thick "Fries"

1TBS of oil

Salt and pepper

1/2 cup of Parmesan Cheese

Gently toss carrot fries in oil, salt and pepper and sprinkle cheese on them. Lay them in a single layer on a parchment paper lined baking sheet pan.

Roast in a preheated 425-degree oven until tender and lightly charred, about 16-20 minutes, mixing halfway through!
